# Abhay Kumar Das

## Full Stack Web Developer

Kandivali West, Mumbai, India  |  +91 8169805273  |  abhay44das@gmail.com
Website: abhaykumardas.netlify.app  |  Github: Innocent-Alive  |  LinkedIn: innocent-alive

## PROFILE

Entry-level **Full Stack Web Developer** and **Android Developer** with a background in **Java, JavaScript**, **Php** and **TypeScript**. Developed user interfaces using **React** and built backend services with **Node.js** and **Express.js**. Created **Android apps** using **Java** and **XML**. Comfortable working in collaborative environments and writing structured, maintainable code.

## EXPERIENCE

**Freelance Developer (Shri Kalam Academy)**                                   25 Nov 2024- Current
- Leading the development of an enterprise-grade **LMS** used by over **500+ students and instructors** across web and mobile platforms.
- Built and integrated user dashboards, role-based access control, and real-time notifications, resulting in a 30% increase in user engagement.

**Java Full Stack Intern (SDAC Infotech)**                                   16 Apr 2024 - 31 May 2024
- Strengthened skills in Core Java, OOP principles, and database operations, completing over 20+ practice modules.
- Assisted in developing backend services using **Java Servlets** and **MySQL**, reducing query execution time by 15% through optimized logic.
- Contributed in the development of 3+ live modules by supporting coding, testing, and integrating backend functionalities under senior developer guidance.

## PROJECTS

**EcoStore**                                                                 ecostoreonline.onrender.com
- Developed a full-stack eCommerce application using the **MERN stack**, allowing users to browse, filter, and securely purchase 50+ eco-friendly products.
- Built an **admin dashboard** for managing products, orders, and user accounts, improving workflow efficiency by **40%**.
- Technologies:- **React.js**, Vite, **Node.js**, **Express.js**, **MongoDB**, GSAP, TailwindCSS, PayPal Gateway, Cloudinary.

**The Roll Rush Game**                                                         roll-rush.vercel.app
- Built a fun and interactive **dice-rolling game** using vanilla JavaScript, HTML, and CSS.
- Designed the UI with smooth transitions and added game logic for scoring and replay functionality.

**Super Quiz**                                                       github.com/Innocent-Alive/Super-Quiz
- Built a flexible command-line quiz app in **Python** using **XML** for data storage, supporting over 100+ customizable questions across multiple topics.
- Designed to support terminal-based quiz competitions and learning environments.

## SKILLS

- **Languages**:- Java, JavaScript, Python, Typescript, PHP.
- **Frontend**:- HTML, CSS, Bootstrap, XML, React, Tailwind, Vite, Material UI.
- **Backend**:- Express.js, Node.js, Java Servlet.
- **Database**:- MongoDB, MySQL, PostgreSQL, Oracle DB.
- **Tools**:- Visual Studio, Eclipse IDE, PyCharm, Android Studio.
- **Soft Skills**:- Effective Communication, Critical Thinking, Team Collaboration, Detail-Oriented Approach.

## EDUCATION

- **B.Sc. Computer Science** (2022 - 2025) – **GPA - 8.9/10.0**
  Thakur College of Science & Commerce, Mumbai

## CERTIFICATIONS

- Complete Web Development Bootcamp (Dr. Angela Yu)
- Java Spoken Tutorial Certificate (IIT Bombay)
- AWS Academy Graduate Course (AWS Academy)
